

TRAINING

Social Development Program Design and Planning. (Using Logical Framework, Logic model and Theory of Change) 21 – 24 March 2017

"If you fail to plan, you are planning to fail....." (Benjamin Franklin)

CIRCLE Indonesia, from the experiences of evaluating many development projects in Indonesia, found a lot of projects that have smart and interesting ideas, however cannot able to show a good performance in the implementation. One of the main reasons is the failure of the implemented organization of the project to translate the smart ideas into a good project planning.

As a contribution to support the activists of the development works, whether from NGO, government as well as the corporations to be able to create a quality project planning, CIRCLE Indonesia will conduct a training Social Development Program Design and Planning.

CIRCLE Indonesia has been regularly providing this training since 2011. Participants of the training sessions have expressed their satisfaction of the training provisions, including those from TIFA Foundation, KEHATI, Social Impact Timor Leste, Aceh Development Fund (Oxfam's partners), Aliansi Jurnalis Independen (AJI), LP3AP Wamena (Oxfam's partners), Medicine du Monde, CRS Timor Leste, World Vision Indonesia, Bank International Indonesia, Pertamina, BP Migas, etc. Some of the expressions about CIRCLE Indonesia services can be seen in this link: https://www.youtube.com/watch?v=sZDMXcr8Pi0. And please see further information about CIRCLE Indonesia at: www.circleindonesia.or.id

In 2017, CIRCLE Indonesia will conduct again the Social Development Program Planning for the public.

Title of Training Program

Social Development Program Design and Planning.
(Using Logical Framework, Logic model and Theory of Change)

Objective

By the end of the training, the participants are expected:

- To have better understanding of a number of planning approaches and frameworks for social development programs
- To have better skills in developing development program plans.

Materials

- 1. Project Cycle and Introduction to Project Planning
- 2. Result Based Management approach
- 3. Problem-Based Planning: Analysis and Problem Definition
- 4. Transformation Problem Formulation become Objective Formulation
- 5. Determination Indicators and Means of Verification
- 6. Analysis of Risk-Assumptions and Activity Formulation
- 7. Asset-based Planning
- 8. Theory of Change for Structuring Asset-Based Planning
- 9. The introduction of the use of logic models
- 10. Performance monitoring framework

Who should join the training?

This training will be very useful for practitioners for the organizations that implement development program (NGOs, CSR, etc.) in various sectors, particularly who held the following post:

- Project (Program) officer / coordinator / manager
- Project Development officer / manager
- M & E officer / coordinator / manager
- Project Team leader
- Program Director
- Management of Organization (Director/Oversight Committee)
- Those involved in planning, monitoring and evaluation

Training Duration and Schedule

- The training is scheduled to take place in 4 days, with 7.5 effective learning hours each day.
- The training is planned to be held on 21 24 March 2017.

Learning Methods

Sharing or participants experience, participatory approach, and interactive learning will be the basis of the training processes. A number of methods will be used alternately, including presentation, brainstorming, group discussion and assignment, games, case study, cross review & role play.

Lecture

Case study

Games

Tools and Materials

- Presentation materials
- Flipchart paper
- Metaplan paper
- Marker
- Masking tape
- Pictures/photos
- Crayon
- Short movie

Training fee

• The fee for participation in the training is IDR 6,000,000.00 per participant for the whole 4 days. For first 8 participants who register, will get discount and only pay IDR 5.250.000 per participant.

Facilities:

- Training materials in a Flash Disc
- Snack and lunch during the training
- Certificate
- Documentation photos in soft file

Accommodation:

Training fee is exclusive of participant's accommodation. The organising committee can help with reserving a suitable accommodation as needed. Consumption of participants outside of training hours do not include facilities covered by CIRCLE Indonesia.

Registration

 Registration starts since the public announcement of the training until at the latest 7 days before the training starts or on 13 March 2017

How to Register

- Send an expression of interest for participation indicating the participant's name, sending organisation, contact number, or fill in the registration form and send it to office@circleindonesia.or.id or reina.major@circleindonesia.or.id
- Due to limited seats (a maximum of 18 participants), CIRCLE Indonesia will confirm availability of seats and send the invoice for participation fee when seat is available.
- Make payment of the training fee at the latest 7 days after the invoice is sent by CIRCLE Indonesia
- Confirm payment to CIRCLE Indonesia

Registration Information

For any questions or inquiries, please contact Reina Asmedi

 $\underline{office@circleindonesia.or.id} \ \ \underline{or} \ \underline{reina.major@circleindonesia.or.id}$

- +62 (0) 274-623896 or
- +62 (0) 812 2569 7207 during working hours, Monday-Friday

Annex

TOPICS, SUBJECTS AND TIME

Topic	Subject	Time
Day 1		
Introduction, learning contract, flow description, logistics issues	 Introduction Description of training flow and objectives Expectations Agreement 	08:30 - 09:30
Topic 1. Project Cycle and Introduction to Project Planning (comparisons of planning methodologies)	 Differentiating program and project Characteristics of projects Introduction to different types of project cycles Discussion of each stage of project cycle 	09:30 – 10:30
Topic 2. Result Based Management Approach	 Evolution of project management Exploration of the term "result" Distinguishing management results and development results Basic concept of RBM Hierarchy of change 	10:30 – 12:00
Lunch	(M)	12:00 – 13:00
Topic 3. Problem Analysis (case study: 2 techniques)	 Introduction to Problem Analysis Techniques of Problem Analysis, using clustering, problem tree and fishbone methods Practical exercise to do problem analysis using problem tree, clustering or fishbone methods Introduction to case study Practical exercise to do problem analysis and formulation 	13:00 – 15:30
Topic 4. Development of Logframe: Formulation of Objectives	 Importance and function of logframe Introduction to terminologies in logframe table Introduction to types and variations of logframe Practical exercise to formulate objective hierarchy in the Logframe 	15:30 – 17:00
Day 2		Production of the National Control of the Control o
Review of day 1		08:30 - 09:00

Topic 4 (continued).		09:00 - 10:15
Development of Logframe:		
Formulation of Objectives Morning break		10:15 – 10:30
Topic 5. Development of	Definition of indicator	10:30 – 12:15
Logframe: Formulation of	Types of indicators	10.30 - 12.13
Indicators and MoV	Examples of indicators	
	Indicators formulation	
	Definition of MoV	
	Types of MoV	
	Tips on formulating MoV	
Lunch		12:15 – 13:15
Topic 6. Assumption, Risk &	Definition of Risk/Assumption	13:15 – 14:30
Formulation of Activities	Examples of Risk/Assumption	
	Tips on formulating Risk/Assumption	
	Definition of activities	
	Tips on formulating activities	
Topic 7. Program planning	Variation of the definition of ToC	14:30 - 17:00
using the Theory of Change	Framework of ToC	
approach	Difference of ToC with other planning	
	frameworks	
	Stages in the use of ToC framework in	
	program planning	
Day 3		and the second s
Review of day 2		08:30 - 09:00
Review of day 2 Topic 8. (continue)	Samples/practices in using ToC framework	08:30 - 09:00 09:00 - 12:00
Review of day 2 Topic 8. (continue) Program planning using the	Samples/practices in using ToC framework	
Review of day 2 Topic 8. (continue) Program planning using the Theory of Change approach	Samples/practices in using ToC framework	09:00 – 12:00
Review of day 2 Topic 8. (continue) Program planning using the Theory of Change approach Lunch		09:00 - 12:00 12:00- 13:00
Review of day 2 Topic 8. (continue) Program planning using the Theory of Change approach Lunch Topic 9. Program planning	Framework of Logic Model	09:00 – 12:00
Review of day 2 Topic 8. (continue) Program planning using the Theory of Change approach Lunch	 Framework of Logic Model Basic component of Logic Model 	09:00 - 12:00 12:00- 13:00
Review of day 2 Topic 8. (continue) Program planning using the Theory of Change approach Lunch Topic 9. Program planning	 Framework of Logic Model Basic component of Logic Model Stakeholders Analysis (actor) in Logic 	09:00 - 12:00 12:00- 13:00
Review of day 2 Topic 8. (continue) Program planning using the Theory of Change approach Lunch Topic 9. Program planning	 Framework of Logic Model Basic component of Logic Model Stakeholders Analysis (actor) in Logic Model 	09:00 - 12:00 12:00- 13:00
Review of day 2 Topic 8. (continue) Program planning using the Theory of Change approach Lunch Topic 9. Program planning	 Framework of Logic Model Basic component of Logic Model Stakeholders Analysis (actor) in Logic Model Formulation of result component 	09:00 - 12:00 12:00- 13:00
Review of day 2 Topic 8. (continue) Program planning using the Theory of Change approach Lunch Topic 9. Program planning	 Framework of Logic Model Basic component of Logic Model Stakeholders Analysis (actor) in Logic Model 	09:00 - 12:00 12:00- 13:00
Review of day 2 Topic 8. (continue) Program planning using the Theory of Change approach Lunch Topic 9. Program planning using Logic Model	 Framework of Logic Model Basic component of Logic Model Stakeholders Analysis (actor) in Logic Model Formulation of result component 	09:00 - 12:00 12:00- 13:00
Review of day 2 Topic 8. (continue) Program planning using the Theory of Change approach Lunch Topic 9. Program planning using Logic Model Day 4	 Framework of Logic Model Basic component of Logic Model Stakeholders Analysis (actor) in Logic Model Formulation of result component 	09:00 - 12:00 12:00- 13:00
Review of day 2 Topic 8. (continue) Program planning using the Theory of Change approach Lunch Topic 9. Program planning using Logic Model Day 4 Review of day 3	Framework of Logic Model Basic component of Logic Model Stakeholders Analysis (actor) in Logic Model Formulation of result component Formulation of process component	09:00 - 12:00 12:00- 13:00 13:00 - 17:00
Review of day 2 Topic 8. (continue) Program planning using the Theory of Change approach Lunch Topic 9. Program planning using Logic Model Day 4	 Framework of Logic Model Basic component of Logic Model Stakeholders Analysis (actor) in Logic Model Formulation of result component 	09:00 - 12:00 12:00- 13:00 13:00 - 17:00 08:30 - 09:00
Review of day 2 Topic 8. (continue) Program planning using the Theory of Change approach Lunch Topic 9. Program planning using Logic Model Day 4 Review of day 3 Topic 10 (continued).	Framework of Logic Model Basic component of Logic Model Stakeholders Analysis (actor) in Logic Model Formulation of result component Formulation of process component Formulation of Performance Monitoring	09:00 - 12:00 12:00- 13:00 13:00 - 17:00 08:30 - 09:00
Review of day 2 Topic 8. (continue) Program planning using the Theory of Change approach Lunch Topic 9. Program planning using Logic Model Day 4 Review of day 3 Topic 10 (continued). Performance Monitoring	Framework of Logic Model Basic component of Logic Model Stakeholders Analysis (actor) in Logic Model Formulation of result component Formulation of process component Formulation of Performance Monitoring	09:00 - 12:00 12:00- 13:00 13:00 - 17:00 08:30 - 09:00
Review of day 2 Topic 8. (continue) Program planning using the Theory of Change approach Lunch Topic 9. Program planning using Logic Model Day 4 Review of day 3 Topic 10 (continued). Performance Monitoring framework (monitoring plan	Framework of Logic Model Basic component of Logic Model Stakeholders Analysis (actor) in Logic Model Formulation of result component Formulation of process component Formulation of Performance Monitoring	09:00 - 12:00 12:00- 13:00 13:00 - 17:00 08:30 - 09:00
Review of day 2 Topic 8. (continue) Program planning using the Theory of Change approach Lunch Topic 9. Program planning using Logic Model Day 4 Review of day 3 Topic 10 (continued).
